

Free Money for **New Lives**

Making a difference for pregnant women and their unborn children...

Brothers and Sisters in Christ,

On December 8th 2008, all families who receive Family Tax Benefit A will be given \$1000 per child in order to 'boost the economy'. We want to challenge you to use half of this 'free money' ... 'for new lives' with the view to achieving three goals:

1. To support and grow **ANGLICARE's Carramar Early Intervention** program, a safe-house and support program that cares for young, pregnant women in adverse circumstances who want to keep their child.
2. To support **Women's Forum Australia**, the pioneering independent organisation that is committed to 'inspiring a woman-friendly culture.' WFA has repeatedly challenged the prevailing abortion culture at many levels.
3. To produce a **high quality TV-style ad campaign** showcasing interviews with women who have had abortions and who want to speak out. Distributed via the internet, it will point pregnant women to a website with links to quality pro-life counselling services across Australia, and with reliable information on abortion and its alternatives.

Money will be collected by ANGLICARE and divided between these three causes. Whether you receive this money or not, we invite you to join with us and show the world the love of lives transformed by Jesus. Please turn overleaf to read how...
